## Basketball Star Academy

### Fees and payments (updated for 26/27 season)

To be enrolled to Basketball Star Academy, you need to apply through our application process.

The process involves also admission to the school for the sport students and admission to SportStar college for boarding players.

Following up your application, you will be called for interviews: these are mandatory and needed to assess your academic level, your basketball level and commitment and to learn more about your motivation to join our program.

Once admitted, you will receive an admission letter (including admission from the school, SportStar College and the basketball Academy).

Every player who is accepted in Basketball Star Academy will be assessed at the beginning of the school year and basketball season and different teams will be formed. Every player will be included in one BSA roster and playing in at least one DBBF tournament, depending on the skill level.

During the year, a player can flow from one team to another, based on development and games.

All the decisions about rosters and teams are taken in the coaches' team and supervised by the Head Coach, who is also responsible for the development of the Academy, supervising and developing of all our coaches.

The total annual cost for being part of Basketball Star Academy is 22K DKK. The cost is invoiced monthly.

To secure your spot in Basketball Star Academy, we require a downpayment of 4000 DKK that needs to be received immediately after receiving the acceptance letter. The downpayment will cover the basketball fee for the last two months of the season (May and June) and it won't be refunded if the player leaves the Academy before the end of the season.

Your place in the Academy is reserved once we receive the downpayment. After that, we will invoice the monthly fee every month, starting from August until April included.
